V. Curriculum Topics

Sarah Ash - State testing started last week. Our 8th-11th grade students took the PSAT 8, PSAT 9, 10, SAT, and ACT WorkKeys. Make up tests will be given during the designated time frames for those who were unable to attend on testing day. M-Step and Mi-Access is also beginning for 3rd-11th grade students and we have until mid-May to complete the computer-based tests. Depending on the grade level, students will take tests in various subject areas ranging from ELA, Math, Science, and/or Social Studies. NWEA reading and math and STAR testing will begin at the end of April for our Kindergarten-8th grade students. End of the year benchmark testing is required by state law. Planning for professional development for the 2025-2026 school year is underway. We are trying to provide multiple choices for staff to choose from and also provide some time for grade or department guided professional learning. I have been working with Chad to complete the various reports that are needed for the grants we have received. The state provided a grant to purchase new English/Reading curriculum for elementary students that align to the science of reading. We have had multiple teachers pilot two different programs this year and the staff has decided to proceed with Wonders, which is the same program that is currently used in 5th grade. Once a quote is prepared and approved with the Curriculum Council it will be shared for board approval and purchase with grant funds. Summer school planning is underway for the Elementary and Middle School. The Sexual Education Advisory Board met this afternoon for our second annual meeting of the school year. Our next Curriculum Council meeting is scheduled for Thursday, May 15th at 8:15am.
